Name: Aarav Sharma

Email: aarav.sharma@example.com

Summary:

Python developer with 2+ years of experience in building REST APIs and backend systems using Flask and Django. Hands-on with Docker and PostgreSQL for containerized deployments. Worked on cloud-hosted applications on Google Cloud Platform (GCP).

Skills:

Python, Flask, Django, REST API, SQL, PostgreSQL, Docker, GCP, Git, Linux

Experience:

- Developed scalable REST APIs using Flask for internal HR management.

- Deployed microservices on GCP using Docker containers.

- Implemented CI/CD pipelines for automated testing and deployment.
